

70 kW Packaged Industrial Chiller

MEX EA 150

FEATURES:

Air cooled packaged glycol chiller designed for industrial cooling, including:

Integral 2.1bar pump

Integral buffer tank

Suitable for indoor or outdoor siting

Three phase power supply

Specification Overview

Model	MEX EA 150
Nominal Cooling Duty	70 kW
Cooling Duty @ 10°C Fluid Temperature	58 kW
Cooling Duty @ -4°C Fluid Temperature	37 kW
Fluid	Water/Glycol 30%
Settable Temperature Range	-5°C to +15°C
Fluid Flow Rate	7,000 to 15,000 Litres/Hour
Ambient Air Temperature	30°C
Internal Pump Max. Pressure	2.1 Bar
Internal Tank Capacity	120 Litres
Connection Sizes	1½" BSP
Power	415v AC N + Earth
Full Load Amps	55.1 Amps
Dimensions (mm)	2,067 (H) x 2,061 (L) x 898 (W)
Dry Weight	540 Kg
Suitable for Indoor or Outdoor Siting	Fully Weatherproofed
